e.....,1; cVv M,..k  
v..... . Hyundai was the first car  
company to come out with a remote  
starter in 1996. I am trying to  
automate the remote starter with a  
remote controller. I have written the  
WDs for some of the key features.  
Using the included code i can open the  
remote starter and i can even start it.  
What i cannot figure out is how can i  
trigger a button on the remote  
controller (From 1 to 8) and start the  
remote starter with the command i  
specify. . I have tried to put the button  
release code in the setup function of  
the remote controller and in the start

---

function of the remote starter. In both cases the remote starter starts but it triggers all the buttons on the remote starting at the same time. i can't figure out how to send serial numbers as parameters to other functions. in the code below i am trying to send the DAN001201 as parameter to the function getSerial but i get an error that says : An unhandled exception of type 'System.FormatException' occurred in System.windows.forms.dll. the serial i am trying to sent is the same as the buttons from the remote controller (DAN001201). . . function getSerial( serialnumber). Dim serial

---

As String = serialnumber. 'Create a new Instance of the Recordset class.

```
Dim rst As New Recordset()  
rst.Open("SELECT * FROM tbllogs",  
Me. Connected to the computer via the  
USB cable. i am getting the serial from  
an array on the computer. When i run  
the demo program i can see on the  
registry that the driver was installed  
succesfully. Any help will be greatly  
appreciated. I have tried the code  
below and it does not work. . ' List the  
serial numbers for the buttons. Dim  
serialList As String() =  
txtblSerial.Text.Split(";") '
```

numberPrevalence of hypertension in Ghana and implications for national strategies on the prevention and control of hypertension. A cross-sectional study of 2,261 randomly selected Ghanaians in the Ashanti Region was conducted in October 2000 to determine the prevalence of hypertension and to identify risk factors for its development.

Participants completed a questionnaire that contained information about sociodemographic factors, medical history, and other aspects of daily life. Systolic and diastolic blood pressures were measured by trained nurses. The

---

overall prevalence of hypertension was 21.1% (95% confidence interval, 19.0-23.2%). The majority of the participants were middle-aged women (36 years of age, 95% confidence interval, 34.2-37.4), who lived in rural areas (78.8%) and who were of a low income (89.1% of income of US \$6 per day or less). The prevalence of hypertension was positively associated with age, BMI, lack of physical activity, and cigarette smoking. The hypertension prevalence in Ghana in 2000 3e33713323
