Pets are the most important aspect of your game. You will be spending a lot of time and money on them so you want to make sure that you get the right skin for them! A year ago I came across what I thought was a new skin. I wasn't sure at the time because it was a new title but when it came out I was absolutely delighted to see that it was totally different and from a new game! I couldn't remember what the name was that I had bought her but I remembered that she liked the game. I figured that she'd have to have the gift receipt or I could try and find out who it was. It took me quite a while to track down the person I was buying the gift for and I still couldn't find the person who had bought the gift! I tried to find her on Facebook and tried to send her an email through Gmail as well. Nothing! I was starting to think that I
