"This is a rare action RPG that can hold its own with the ever-present Seiken Densetsu on the Nintendo GameCube... There are numerous refinements and added features to enhance the original, but it's still a largely traditional RPG. Fortunately, that traditional RPG is one of the most accessible and entertaining around, with fast and responsive combat, the ability to create your own character, and all the advantages and disadvantages of the typical RPG." GameSpot "Seiken Densetsu is an RPG legend. [...] it really is one of the true treasures of the GameCube." GameSpot "If you have a GameCube and you aren't playing Seiken Densetsu: Goshuuden, you need to start now." IGN "This is the best RPG on the GameCube." IGN "Not only does Seiken Densetsu: Goshuuden surpasses previous CameCube titles, but it surpasses previous console RPG masterpieces such as Chrono Trigger and Secret of Mana as well." IGN "Seiken Densetsu: Goshuuden is one of the best RPGs for the Nintendo GameCube." RPGamer So, after great anticipation, Seiken Densetsu: Goshuuden, the game that has long been referenced as the perfect GameCube RPG, is finally here. With the game being available in Japan for almost two years now, I can honestly say that I was completely blown away by the game today." GameSpot Seiken Densetsu: Goshuuden is a traditional RPG, but with a unique design that combines the best elements of traditional RPGs with a new infusion of style. The standard items and enemies that RPG fans will become used to are all present, but they are given a new look to help set it apart from other RPGs. Each system - attacks, items, spells, and equipment - has been given a unique and fresh look. Even the camera angles have been revised. All of the intricacies of fighting and backstabbing have been preserved, and it remains as satisfying to play as the original. It can be tough and it can be slow, but Seiken Densetsu: Goshuuden is an RPG classic that bff6bb2d33
