15.53:9.8 GAME PLAY 15.53:9.9 PURPOSE OF GAME 15.53:9.8 SUMMARY (SU 548) Decent enough game, but there are some really funny bugs. It's not even the whole point of the game, but during the third chapter, the game would freeze if I tried to make a move during the nighttime. 8.7 GAME PLAY 7.7 PURPOSE OF GAME 6.7 SUMMARY (SU 450) This game shows what happens when you take a party-based RPG and try to cram it into an isometric format. It works pretty well except that I think they should have just made it easier to understand. I have had a hard time figuring out how to use some of the simple skills to finish things. 5.5 GAME PLAY 4.9 PURPOSE OF GAME 5.5 SUMMARY (SU 425) I can't believe this game was released. It seems like a step backwards from the remakes of the old DOS RPGs I'd played a decade earlier. It's pretty blatant and filled with unnecessary vulgarity. 3.7 GAME PLAY 3.7 PURPOSE OF GAME 3.7 SUMMARY (SU 403) This game is good, but why is it taking so long to get rid of the problems caused by the old Battle Wizards. I wish I could have access to the previous version's manual. 2.7 GAME PLAY 2.4 PURPOSE OF GAME 2.5 SUMMARY (SU 392) The new Fantasy action RPG Elden Ring was released. This game has a great idea of making the best RPG game of the new generation that is in the form of an action game. As far as the game is concerned, the rate of the game is reasonable. The game has the best graphics and it is a game that you can play anywhere! The level of the game is reasonable so the gameplay is very fun! The boss battles are really easy to defeat. 0.0 GAME PLAY 0.0 bff6bb2d33

-----***** Roleplaying games group created all original art, characters and stories etc. as well as collecting and experience in learning to create games of any variety. We're
also remixing popular games in this part of the internet, and we could use a few new characters as well as new ideas for game design.[IMG] OMG! I managed to get a game started~ I joined the original server. I just got in character,
My name is Wotage(lol) Its hard to write German, but im getting there... Anyway I have a small question (Gotta start somewhere) - I'm storyboarding, Custom mapmaking, and level design and programming on it at the moment WTF
I really like the combat system the use of runes and motion to control attacks and that kind of stuff, what do you people think about customize attacks, spells, weapons, armor etc. Not being literate in AS3 I am a little upset with
the amount of time it takes to make it do what I want it do, also I know it can be faster for a experienced character designer. The combat system is classic, move in different ways a different way basic hack n slash I don't see your
customizations will be needed. Your actually gonna try this right? Untill we find out what your trying to do we can't really help you, Other then help you research. We need to know what you can attack and what can you defend
against. If you can make your own weapon just tell us you are making your own weapon and then we can say what you can do with it,**
