---

of foliage that is used to cover roofs. They are similar to a green house, but are placed on a roof instead of on a side of the house. They can be used for many different purposes. They can be used to cover a roof, protect the roof from

---

weather and make it look attractive. There are many benefits to having a green roof and the reasons as to why you might want to have a green roof on your home are numerous. In the first place they are going to protect the roof

---

from certain types of damage. If you have a heavy snow storm and the snow is piled up on your roof, it can cause damage to the roof, which is going to need some repair. By building a green roof onto your home, you'll eliminate this

---

problem. Also, if you have a home that has an attic and you don't want anything leaking into your home, this is going to be a problem if you have a regular roof instead of a green roof. Green roof's work by absorbing water and

---

snow, which will hopefully never get into your attic space. They can also absorb and reduce run-off from rain and snow, which will help reduce the likelihood of your basement flooding. Another reason why people might want to

have a green roof on  
their homes is  
because it can  
improve the overall  
quality of their home.  
A green roof is going  
to make a home more  
attractive to the eye  
and can improve the
